Leg of Lamb
per kg **£13.99**

£12.50

HERB FED

For A Bird With Taste

Because our poultry has had time to grow slowly, reaching maturity naturally, the taste and texture has had time to develop further.

The fresh herbs we introduce really enhance the natural flavour of the meat giving it a greater depth and unique taste. Our chickens are truly free to roam outside and make use of their natural instincts; being able to peck at the grass, find and eat insects, dust bathe and soak up the sunshine.... Or the rain! They live in mobile huts in small flock sizes, are hand-fed and bedded up daily with fresh straw.

Fresh herbs are put in custom made miniature hay racks in the bird's fields where they are free to peck away at them at their will. All the herbs are a by-product of Herbs Unlimited and are either trimmings or herbs that have simply gone past their best and would otherwise end up on a compost heap.

Pecking through the herbs keeps the birds occupied and stimulated resulting in happy and extremely healthy birds. Furthermore, the herbs provide additional nutrients to their diet on top of the additive free cereal based feed they get from a local mill.

By using this waste, Herb Fed is not only contributing to our bird's quality of life, but doing so in a way which is sustainable and environmentally friendly.

12531 Herb Fed Chicken Supremes
ave 284-340g
per kg **£12.50**
